RESEARCH ARTICLES

Lough, R. G., Valentine, P. C., Potter, D. C., Auditore, P. J., Bolz, G. R., Neilson, J. D., Perry, R. I.
Ecology and distribution of juvenile cod and haddock in relation to sediment type and bottom currents on eastern Georges Bank 1–12

Russ, G. R., Alcala, A. C.
Effects of intense fishing pressure on an assemblage of coral reef fishes 13–27

McCallum, H. I., Endean, R., Cameron, A. M.
Sublethal damage to *Acanthaster planci* as an index of predation pressure 29–36

Rumrill, S. S.
Population size-structure, juvenile growth, and breeding periodicity of the sea star *Asterina miniata* in Barkley Sound, British Columbia 37–47

Tiselius, P.
Contribution of aloricate ciliates to the diet of *Acartia clausi* and *Centropages hamatus* in coastal waters 49–56

Small, L. F., Landry, M. R., Eppley, R. W., Azam, F., Carlucci, A. F.
Role of plankton in the carbon and nitrogen budgets of Santa Monica Basin, California 57–74

Nielsen, T. G., Richardson, K.
Food chain structure of the North Sea plankton communities: seasonal variations of the role of the microbial loop 75–87

Dunton, K. H. Saupe, S. M., Golikov, A. N., Schell, D. M., Schonberg, S. V.
Trophic relationships and isotopic gradients among arctic and subarctic marine fauna 89–97

Stoner, A. W.
Winter mass migration of juvenile queen conch *Strombus gigas* and their influence on the benthic environment 99–104

Lin, J.
Influence of location in a salt marsh on survivorship of ribbed mussels 105–110

Hettler, W. F., Jr
Nekton use of regularly-flooded salt-marsh cordgrass habitat in North Carolina, USA 111–118

Gröndahl, F.
Evidence of gregarious settlement of planula larvae of the scyphozoan *Aurelia aurita*: an experimental study 119–125

Zajac, R. N. Whitlatch, R. B., Osman, R. W.
Effects of inter-specific density and food supply on survivorship and growth of newly settled benthos 127–132

Alongi, D. M., Boto, K. G., Tirendi, F.
Effect of exported mangrove litter on bacterial productivity and dissolved organic carbon fluxes in adjacent tropical nearshore sediments 133–144

O'Neil, J. M., Capone, D. G.
Nitrogenase activity in tropical carbonate marine sediments 145–156

Riisgård, H. U.
Properties and energy cost of the muscular piston pump in the suspension feeding polychaete *Chaetopterus variopedatus* 157–168

Van Alstyne, K. L.
Adventitious branching as a herbivore-induced defense in the intertidal brown alga *Fucus distichus* 169–176

Bidigare, R. R., Schofield, O., Prézelin, B. B.
Influence of zeaxanthin on quantum yield of photosynthesis of *Synechococcus* clone WH7803 (DC2) 177–188

Mayzaud, P., Chanut, J. P., Ackman, R. G.
Seasonal changes of the biochemical composition of marine particulate matter with special reference to fatty acids and sterols 189–204

NOTE

Jellett, J. F., Novitsky, J. A., Cantley, J. A., Scheibling, R. E.
Non-occurrence of free-living *Paramoeba invadens* in water and sediments of Halifax Harbour, Nova Scotia, Canada 205–209

Volume 56 · Number 3 · 1989

RESEARCH ARTICLES

Stergiou, K. I.
Capelin *Mallotus villosus* (Pisces: Osmeridae), glaciations, and speciation: a nomothetic approach to fisheries ecology and reproductive biology 211–224

Carlotti, F., Sciandra, A.
Population dynamics model of *Euterpina acutifrons* (Copepoda: Harpacticoida) coupling individual growth and larval development 225–242

Esselink, P., Zwarts, L.
Seasonal trend in burrow depth and tidal variation in feeding activity of *Nereis diversicolor* 243–254

Zwarts, L., Esselink, P.
Versatility of male curlews *Numenius arquata* preying upon *Nereis diversicolor*: deploying contrasting capture modes dependent on prey availability 255–269

Hargrave, B. T., Phillips, G. A.
Decay times of organic carbon in sedimented detritus in a macrodidal estuary 271–279

Nöthig, E.-M., Bodungen, B. von
Occurrence and vertical flux of faecal pellets of probably protozoan origin in the southeastern Weddell Sea (Antarctica) 281–289

Tremblay, C., Runge, J. A., Legendre, L.
Grazing and sedimentation of ice algae during and immediately after a bloom at the ice-water interface 291–300

Painchaud, J., Therriault, J.-C.
Relationships between bacteria, phytoplankton and particulate organic carbon in the Upper St. Lawrence Estuary 301–311
